

To continue our work, we now need to expand our community of support.

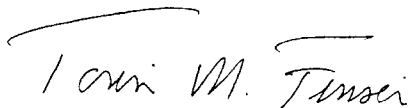

Thanks to a matching gift, last year we were able to raise \$35,000 for scholarships, development and our wonderful alumni reunion. Yet with a record 64 new students enrolled in our programs this year, we need to stretch even further.

As examples of "spirit resolve" two donors have stepped forward with a pledge to match 2:1 every new or increased gift to this year's annual fund. So no matter how modest your contribution, we urge you to add us as a regular beneficiary of your annual giving or increase the size of your annual gift.

As you can appreciate from the story of forgiveness told above, whenever we reach for one another with conscious deeds of assistance, we experience the spiritual, transformative strength of community that binds us together in ways that transcend physical boundaries.

Please help us continue this stream of work.

Yours sincerely,
